# Connect 1-Semester Access Card For Macroeconomics

## Synopsis

McGraw-Hill Connect is a digital teaching and learning environment with a fully interactive eBook that saves students and instructors time while improving performance over a variety of critical outcomes. Connect offers rich content, abundant assignment types, and flexible policy options along with powerful study tools that adapt to individual student understanding and need. Connect can generate a number of powerful reports that let you quickly review the performance of an individual student or an entire class.

## Customer Reviews

I want to give 5 stars to the seller and but 1 star to the product itself and its creators. My school signed a contract with McGrawhill so now access codes are required. Ever since, my textbook costs have skyrocketed. I have no idea why broke college students need to further their debt by buying these codes. Digital book access, homework turn ins, learn smart program? For \$100 per class so full time students pay up to \$400 in addition to textbooks? Who would ever think that was a good idea? Forget the digital book access when the physical rentals are \$20-30, forget homework turns in and online exams when there's programs like moodle where it's free for students to use, and learn smart is not an upgrade from traditional studying that's worth emptying my pocket. If you truly care about education and progress, then consider the students' income, please. I mean honestly, if it weren't for mandatory access codes being implemented into my courses this year, I could have saved up to buy something I actually need in school.

Honestly, never thought this code would have worked since the code comes off of the McGraw Hill website at \$100. Had no problems activating the code, and somehow I got the online book as well with this code. Could not have been happier!

I was concerned about purchasing this item from a third party seller, but it worked perfectly and it was \$20 cheaper than it was on the Connect website (I paid for expedited shipping). Would highly recommend!

My card worked 100% for me all the way through. Make sure you get the right kind of card for the class you are taking, as that can be the only real mix-up.

Had to get it sad to say. But the person was willing to work with easy purchase.

surprise it worked... and received access to ebook as well
