Researchers constantly find that reading to children is valuable in avariety of ways, not least of which are instilling a love of reading and improved reading skills. With better parent-child bonding from reading, your child will also be more emotionally secure and able to relate better to others. Intellectual performance will expand as well. Spending time together watching television fails as a substitute. To help other parents apply this advice, as a parent of four I consulted an expert, our youngest child, and asked her to share with me her favorite books that were read to her as a young child. Yertle the Turtle was one of her picks. This book has three stories in it, each with the same theme: Making Yourself More Self-Important Is the Wrong Direction! Those who are familiar with Dr.

Seuss's works during World War II as a political cartoonist will recognize the Yertle the Turtle theme as part of his satire of fascist dictators....Your child will meet a lot of bossy people in her or his life, and this book can help prepare the way for understanding that one must assert one's rights or be trampled on. The child who is a natural leader can also learn the lesson of not abusing others. This story is a fundamental one for a democracy and should be read by every child. You will want to discuss applications of the lesson, as well, with your child. The drawings are very funny and will keep your child laughing throughout. Gertrude McFuss is about the dangers of envy. She was a girl-bird with the smallest plain tail ever. She had just one droopy-drop feather. Her friend, Lolla-Lee-Lou, had two feathers . . . both of which were larger. Gertrude decided she must has two also.... Your child will undoubtedly develop some envy of another child at this age.

Yertle the Turtle and Other Stories is amongst Seuss' best works. The stories are poignant. They are all great Read-a-Louds, and they have great rhymes. The first of the three stories is Yertle the Turtle. It's about a king turtle that decides that his pond is not kingdom enough. He orders his subjects -- other turtles -- to stack themselves so that he can see further; his assumption being that he is the king of all he surveys. It's actually very amusing to see how many ways there are to interpret this story. A quick trip over to .com will show you that people view Yertle as everything from simple bossy-boots, to a stand in for Hitler or Stalin. And far be it for me to argue that they aren't correct. And, in fact, this is the power of this story. That it can be understood from different perspectives, so that children can 'grow into' various interpretations. Personally, my first thought was that Yertle was like the British Aristocracy, while the lowly turtle Mac (at the bottom of the stack) was the American Colonies. The second story is "Gertrude McFuzz". Gertrude is a bird that is suffering from jealousy. She sees La-La Lee Lou and wants a grand tale like her. In the end though, she comes to appreciate what she has. The final story continues with the theme of humility and is entitled, "The Big Brag". The Accelerated Reading designation for this book is 3.3 which means that your average 3rd Grader in the 3rd month of school should be able to read this book themselves without getting too frustrated by words they don't know. [The book can be read to any age, of course.]The "official" Interest Level is given as Preschool thru 2nd Grade.
