# Evolution: A Visual Record

## Synopsis

Stunning images to reawaken us to the scientific process that drives the amazing diversity of life on earth. Evidence of evolution is everywhere. Through 200 revelatory images, award-winning photographer Robert Clark makes one of the most important foundations of science clear and exciting to everyone. *Evolution: A Visual Record* transports readers from the near-mystical (human ancestors) to the historic (the famous 'finches' Darwin collected on the Galapagos Islands that spurred his theory); the recently understood (the link between dinosaurs and modern birds) to the simply astonishing.
